The LGB garden railway is robust and a real highlight for any garden, whatever the weather.

Everything you need for endless family fun
Tank wagons to fill, opening doors and much more besides. The model railway experience for the whole family!

For example:
40551 DR Low Side Car

Fillable low-side cars!

For example:
40554 DR Stake Car

Whether it is fresh water for the plants or some potting compost for filling the tubs. This will help you have tremendous fun in your garden!

For example:
40555 DR Tank Car

Fillable tank wagons!

All housings withstand UV light, and are made of impact and weather-resistant materials.

The special fun experience for indoors and outdoors. Just unpack the starter set, assemble and go!

The building block train including a set of 30 building blocks which can be re-arranged by young and old to suit their imagination and creativity offers a model railway experience for the whole family. Maximum fun by extending the building block train with the building block car (94063).

Dear LGB Fan,

LGB – The Lehmann-Gross-Bahn / Lehmann Big Trains
Turn(s) 50!

So, large gauge fans, let’s celebrate. What began in 1968 running in the snow in front of the halls of the Nürnberg Toy Fair with entrepreneurial daring by the Richter family as a sensation is still viewed today after great successes and trials greater than just turbulence caused by weather as the model railroad hobby closest to families and nature in the world.

At Märklin, we are proud to be able to develop this living “treasure” even further. For who better to realize and continue the model construction commitment of Wolfgang and Eberhard Richter, the founders of the challenging large gauge trains, “We wanted to get into more detail.”, than the model railroad specialists from Göppingen and Györ, who have been assimilating and reshaping the LGB brand for over 10 years. At the same time, sturdiness and weather resistance of the material also have the highest priority for them. In line with the spirit of the Richters, who in 1970 had the circus elephant “Hassan” walk on LGB track to demonstrate its ability to withstand being walked on.

Therefore, let’s celebrate the great anniversary of this unique brand that not only brings a gleam to children’s eyes – but is committed to both tradition and the future: with 2018 full of new items that allow us to look back on the past 50 years without dispensing with contemporary technical features. Representative of this is the model of the RhB class Ge 4/4 II locomotive, road number 617 of the Rhaetian Railroad, in a special paint and lettering scheme for the fiftieth anniversary, the legendary Stainz steam locomotive in a special birthday edition, and a model of the “Factory Train” as it looked for many years as a landmark in front of the Nürnberg LGB plant on Saganer Street.

We want to thank all LGB fans for their long years of loyalty and enthusiasm for their hobby and we extend our best wishes for much fun outdoors and indoors with their garden railroad and the LGB new item models for the anniversary year 2018.

LGB Factory Train

Lenz Type i is the mundane designation for one of the cutest steam locomotives ever built in Germany. Only two of the units of this class constructed in the Vulcan shipyard in Stettin can still be admired today. One of them is the famous “Franzburg”. It still runs today in Bruchhausen-Vilsen at the German Railroad Association and as an LGB model on many, many garden railroads. Number 2 was sold in 1970 to LGB and has stood for many years along with the so-called “Factory Train” as a landmark of the discoverers of garden railroading in front of the Nürnberg LGB plant on Saganer Street. This locomotive ran as road number 99 5606 starting in 1894 for the Franzburg County Railways and thus helped develop the Baltic Sea coastal area. Its line linked the cities of Ribnitz-Damgarten and Barth with Stralsund and the standard gauge line to Rostock. The locomotive in the characteristic 0-4-0 design with two driving axles and no pilot truck ran on this route until being retired. Its external characteristic: the missing steam dome. The dimensions for this 9.9 metric ton “heavy” locomotive were a length over the buffers of 5.8 meters / 18 feet 10 inches and a wheelbase of 1.7 meters / 66 inches. The water tanks were mounted on the right and left of the frame. The water capacity was one cubic meter / 264.17 gallons and the fuel capacity was 350 kilograms / 771.62 pounds. With a robust maximum speed of 30 kilometers per hour / 18.75 miles per hours, this little iron horse hauled passengers and freight along the Baltic Sea coast – until well into the Sixties. The long trip for road number 99 5606 led via Nürnberg for several years to Schwäbisch-Gmünd to the strongly reinforced garage roof of the Märklin Technology Director Wolfrad Bächle, who was absolutely convinced of the historical value of this irresistible small locomotive. For that reason, he transferred it to a new owner, who wants to overhaul the locomotive for a new life as an operational steam locomotive. This model is being delivered in the set with the three prototypically correct two-axle “Factory Train” cars as they looked in the Seventies.

The two-axle boxcar, car number 336, is prototypically painted in brown and lettered for the Seventies. The car has a separately applied brake wheel for the hand brakes and a prototypical arrangement of the brake shoes only on the inner surface of the wheels. Total train length 115 cm / 45-1/4”.

49180 DR Roller Car Set
This car set consists of two DR type Rf4 roller cars as was used on many narrow-gauge lines in Saxony. This car is completely new tooling with many details typical of this type of car. The paint scheme and lettering are prototypical for Era III. The center part of the car floor is constructed of die-cast metal so that the car has sufficient weight to run well on track when the car is not loaded. The chock block restraints can be swung and are adjustable. Even standard LGB cars with a gauge of 45 mm / 1-3/4” can be loaded on this car by means of the restraint blocks included with this car set. The roller cars are prototypically coupled to each other and to a locomotive or another car with a standard LGB coupler by means of the coupler drawbars included with this set. The cars have metal wheel sets.
Length of a car 34 cm / 13-3/8”.

• Completely new tooling.

Ihr LGB Club Membership

Thank you very much for your interest in the LGB Club! We are happy to welcome you!

Nearby you will find a registration form. We kindly ask you to take notice of the following information and the terms and conditions governing the membership relationship between you and us, Gebr. Märklin & Cie. GmbH, Stuttgarter Straße 55 – 57, 73033 Göppingen, Germany:

Membership Fee

The membership fee amounts to EUR 79.95/CHF 109.95/US $ 109.00 at the moment for every membership year (depending on where you have your permanent residence). You may specify your payment method in the form. We offer payment of the membership fee via SEPA Direct Debit Scheme, credit slip, bank transfer or credit card.

Beginn und Ende Ihrer Mitgliedschaft

Your membership (and thereby your personal club card) begins with receipt of your membership fee by us. You will then receive all future club benefits for the term of one year. The membership prolongs automatically for another club year if you do not terminate your membership with six weeks notice.

We reserve our right to raise the membership fee or to change these terms and conditions. We will inform you in due time, combined with the right to extraordinarily terminate your membership with three weeks notice. We will advise you explicitly again in such case.

Questions and Customer Service

For any questions, please do not hesitate to contact our Club Team from Monday to Friday from 10 a.m. – 5 p.m. or +49 (0) 71 61 / 608-313, E-Mail: club@lgb.de

Sie können dafür das beigefügte Muster-Widerrufsformular verwenden, das jedoch nicht vorgeschrieben ist. Zur Wahrung des Widerrufsrechts reicht es aus, dass Sie die Mitteilung über die Ausübung des Widerrufsrechts vor Ablauf des Widerrufsfristen abenden. 

**Folgen des Widerrufs**

Wenn Sie diesen Vertrag widerrufen, haben wir Ihnen alle Zahlungen, die wir von Ihnen erhalten haben, einschließlich der Lieferkosten (mit Ausnahme der zusätzlichen Kosten, die sich daraus ergeben, dass Sie eine andere Art der Lieferung als die von uns angebotene, günstigste Standardlieferung gewählt haben), unverzüglich und spätestens binnen vierzehn Tagen ab dem Tag zurückzuzahlen, an dem die Mitteilung über Ihren Widerruf dieses Vertrags bei uns eingegangen ist. Für diese Rückzahlung verwenden wir das selbe Zahlungsmittel, das Sie bei der ursprünglichen Transaktion eingesetzt haben, es sei denn, mit Ihnen wurde ausdrücklich etwas anderes vereinbart; in keinem Fall werden Ihnen wegen dieser Rückzahlung Entgelte berechnet.

Haben Sie verlangt, dass die Dienstleistungen während der Widerrufsfrist beginnen soll, so haben Sie uns einen angemessenen Betrag zu zahlen, der dem Anteil der bis zu dem Zeitpunkt, zu dem Sie uns von der Ausübung des Widerrufsrechts hinsichtlich dieses Vertrags unterrichten, bereits erbrachten Dienstleistungen im Vergleich zum Gesamtumfang der im Vertrag vorgesehenen Dienstleistungen entspricht.

**Musterwiderrufsformular**

(Wenn Sie den Vertrag widerrufen wollen, können Sie folgende oder eine ähnliche eindeutige Formulierung verwenden):

- Gebr. Märklin & Cie GmbH, LGB Club, Stuttgarter Straße 55 – 57, 73033 Göppingen, Deutschland,
  Fax: +49 (0) 71 61 / 608-308, Mail: club@lgb.de

**Right of withdrawal**

You have the right to withdraw from this contract within 14 days without giving any reason.

The withdrawal period will expire after 14 days from the day of the conclusion of the contract.

To exercise the right of withdrawal, you must inform us, Gebr. Märklin & Cie. GmbH, LGB Club, Stuttgarter Straße 55 – 57, 73033 Göppingen, Germany, Fax: +49 (0) 71 61 / 608-308, Tel: +49 (0) 71 61 / 608-212; Mail: club@lgb.de, of your decision to withdraw from this contract by an unequivocal statement (e.g. a letter sent by post, fax or e-mail). You may use the attached model withdrawal form, but it is not obligatory. To meet the withdrawal deadline, it is sufficient for you to send your communication concerning your exercise of the right of withdrawal before the withdrawal period has expired.

**Effects of withdrawal**

If you withdraw from this contract, we shall reimburse to you all payments received from you, including the costs of delivery (with the exception of the supplementary costs resulting from your choice of a type of delivery other than the least expensive type of standard delivery offered by us), without undue delay and in any event not later than 14 days from the day on which we are informed about your decision to withdraw from this contract. We will carry out such reimbursement using the same means of payment as you used for the initial transaction, unless you have expressly agreed otherwise; in any event, you will not incur any fees as a result of such reimbursement.

If you requested to begin the performance of services during the withdrawal period, you shall pay us an amount which is in proportion to what has been provided until you have communicated us your withdrawal from this contract, in comparison with the full coverage of the contract.

About LGB

People, who like to be outdoors in the wind and weather, who love their garden and yard and who still want to devote themselves to their hobby of model railroading, are fascinated by the Lehmann garden railway. This fascination is our driving force and a component part of a vision we would like to share with you.

Tradition
In the almost 130 year history of the firm, LGB developed from a small family owned toy manufacturer in Brandenburg to a world famous producer of innovative sheet metal toys. Starting in 1968, the firm devoted itself to the first large railroad system in G Scale, which in the years that followed led to incomparable growth worldwide. LGB has belonged to Märklin since 2008 and is the best selling garden railway system for indoors and outdoors worldwide.

Quality
We make use of the best materials and manufacturing technology to produce our model railroad system, which is designed for use indoors and outdoors. By adhering to the highest international standards for quality, we manufacture products that are technically of high quality and that are sturdy, products that have represented the highest levels of customer satisfaction and enjoyment during play for years.

Innovation
Our LGB program – with over 600 high quality model railroad items in G Scale – is constantly being expanded as a result of a high degree of engineering know-how and quality production methods. Our goal is make use of the ideas and commitment of our loyal LGB fans to improve our existing products and to deliver new items that can be added to your world of play.

The LGB Adventure
LGB offers a model railroad adventure for both big and little people. Here, friends can come together in the garden or the yard and pursue their hobby, and families can play together with their children. LGB can be integrated in a wonderful way into your garden and yard landscaping.

A genuine, interactive play experience – that’s LGB.

Anniversary with the Pressnitz Valley Railroad

Celebrate the LGB anniversary year with us!
At Pentecost in 2018, we will celebrate the anniversary with the Pressnitz Valley Railroad in Jöhstadt. Look forward to exciting attractions and days of total adventure. The plant in Hungary is also celebrating 25 years of production and manufacture of cars, locomotives, and products for our LGB brand!
Don’t forget the Open House Day in Göppingen. In September of 2018, many exciting highlights and a big LGB celebration await you there.

We look forward to your visit!
